Our state-of-the-art data centers are comprised of ultra high-quality connectivity, networking gear, climate control, security and power systems. Our facilities are monitored 24/7/365 from our state-of-the-art network operations center and if a problem arises, we are here to help you!

Our network is comprised of connectivity from several leading Internet backbone providers and enables us to achieve 99% network uptime for our customers. These providers have been carefully chosen to give us the most diverse connectivity possible. The Worldcom/UUNET, Level3 and Sprint backbones over multiple DS3 circuits per provider give us the capacity to host even the largest bandwidth intensive applications. Using the BGP4 routing protocol with each of our providers ensures that the most efficient available path will be taken for your Internet traffic.

3spadeFX Productions is reinventing customer satisfaction by making customer support our priority. With over seven years in eCommerce, we have developed extensive knowledge in support.

Our highly skilled team will configure, monitor and manage your hosting account 24/7 and be there when any problem may arise.
